

University of North Alabama

Employee Policy Manual and Handbook

Emergency Procedures

In case of critical illness, accident, death, or fire on the university campus, emergency assistance should be summoned immediately by calling 911. The University Police Department also should be notified by calling Ext. 4357 or 256-765-4357 (HELP). The University also has a campus-wide emergency notification system designed to provide communications during a campus emergency. The system, Lion Alert, is available to all employees. To register for the system, follow this link: <http://www.una.edu/police/>.
