

Removing a Wireless Profile from an iPad

1. Select **Settings** on your device.

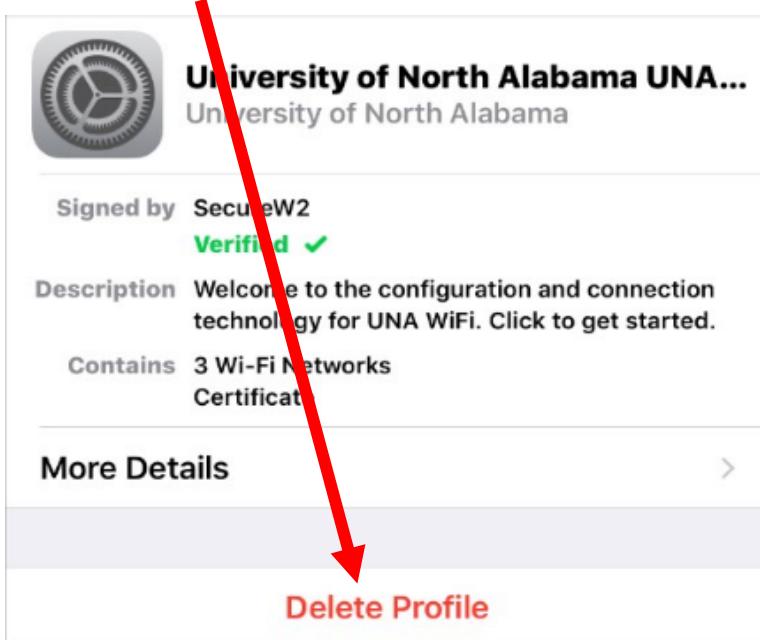

2. In Settings, select **General**.

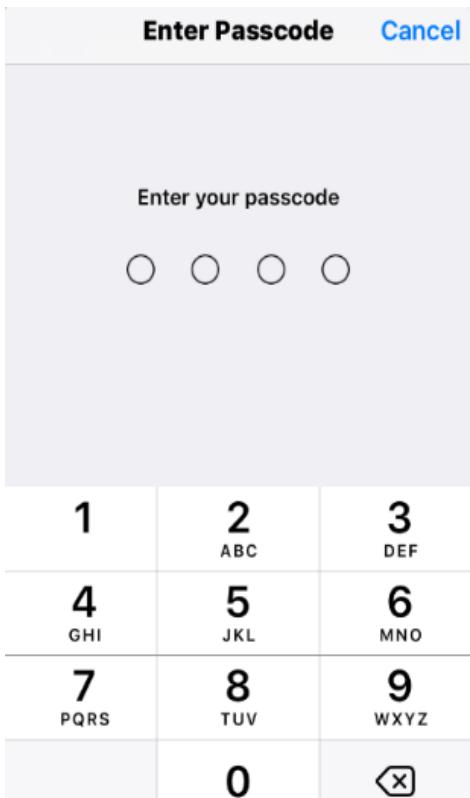

3. Select the **Configuration Profile** with the name University of North Alabama.

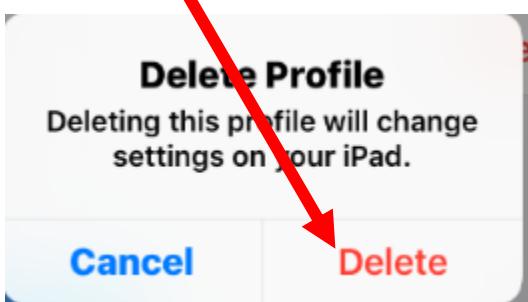

4. Select **Delete Profile**.

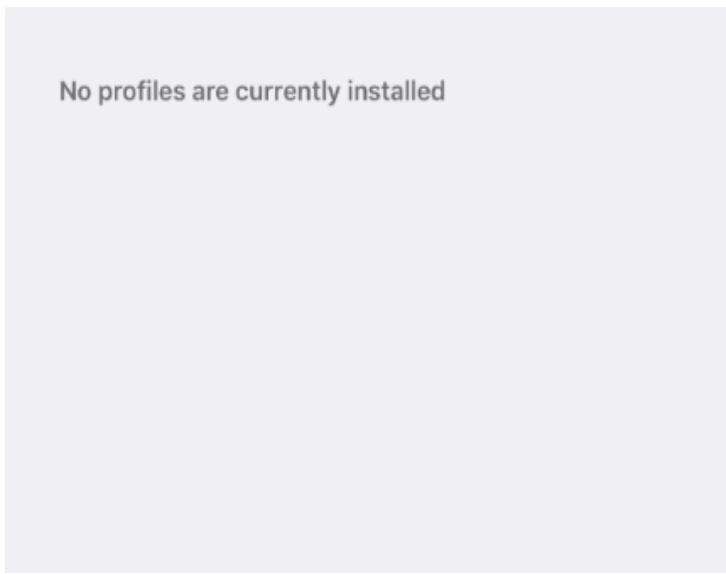

5. Enter the **Passcode** of your device.

6. Select **Delete**.

7. The UNA Profile should now be gone.

Note: You may have profiles from other wireless networks that you have connected to and they may still show up in the list for your device.
