ANNUAL REPORT 2024-2025

I. Executive Summary

The Committee placed a priority on convening in person throughout the year, resulting in a series of highly productive meetings. IV. What were the Committee's actions and accomplishments this year relative to each of the items of the charge?

The Committee commenced the year with a comprehensive review of its formal charge to assess alignment between its stated responsibilities and its current activities. It was determined that, in recent years, the Committee's efforts had centered primarily on the evaluation and recommendation of one-time funding requests, thereby deviating from its core purpose of engaging in strategic budgeting and planning.

In collaboration with the Institutional Effectiveness Committee, the Committee recommended to the Shared Governance Executive Council (SGEC) that an independent, external review of the Shared Governance process be conducted. This recommendation was subsequently approved, and arrangements for the external evaluation are now underway.

Additionally, the Committee facilitated the allocation of a record level of funding in the current year, with approvals totaling over \$300,000 in one-time requests. The Committee expresses its sincere appreciation for the resources provided, which will yield a significant positive impact across the institution.

V. What were the Committee's formal recommendations?

See above.

VI. What does the Committee plan to accomplish?

A. In the coming year?

Continuation of the evaluation of the formal charge via the external review.

B. In future years?

VII. What are the Committee's weaknesses?

In the past, the committee has been used primarily to guide the funding requests for the President. It really has not done much with any budget areas or strategic planning.

- A. What can the Shared Governance Committee help you do to address the weaknesses?

The external review should help guide the committee work back to what it was designed for.
